

Mechanical Soft Consistent Carb

General Recommendations:

For women: 3-4 carbohydrates at each meal

For men: 4-5 carbohydrates at each meal

Take a moment to look through our menu. To place your order,
dial 6255

We are available to take orders from 7 AM - 5 PM daily.

Your nursing staff is available to assist you with menu selections during your stay.

Please allow up to 45 minutes for your meal to be delivered.

There is a limit of one guest tray per meal per room.

Your 100% satisfaction is our number one goal. If, for any reason, our meal service does not meet your expectations, please call the Dietary Manager at extension 3206 and let us know how we can better serve you, our guest.

- ▷ Sugar-Free Pudding (*vanilla, chocolate*) (1)
- ▷ Sugar-Free Jell-O (*orange, strawberry*)
- ▷ Italian Ice (*strawberry, lemon*) (1)
- ▷ Lite Yogurt (*assorted*) (1)

About Your Diet

This diet is the basis for helping control blood sugar for people with diabetes. Eating a consistent amount of carbohydrates at each meal aids in controlling the amount of glucose (sugar) in the blood stream. One carbohydrate choice contains an average of 15 grams of carbohydrates. For most individuals in the hospital, nutritional needs can be met by choosing 3-5 of the carbohydrates at each meal. All ground meat will have either gravy or sauce to keep it moist to ease the chewing and swallowing.

General Recommendations:

For women: 3-4 carbohydrates at each meal

For men: 4-5 carbohydrates at each meal
